PAFN Community

Connection Grants are designed to support the work of artists as they collaborate with local neighborhoods and organizations to address timely challenges.

Through this grant program, artists can help envision a more connected, just, and equitable future for everyone.

The grants will fund arts projects that...

- help address the challenges of the COVID-19 pandemic, and/or
- help advance racial justice priorities on a hyperlocal level that have been identified by the neighborhoods themselves.
- A total of \$50,000 has been reserved. Grant requests can be between \$500 and \$2,500.
