About Myself

I graduated from Herron School of Art and Design in 2011 with a Bachelors in Fine Art with an emphasis in Drawing, a Bachelors in Art Education, and a minor in Art History. I have experience working in a variety of media ranging from oil paint, watercolor, acrylic, encaustic, printmaking, woodcut, collage, darkroom photography, digital photography and various adobe programs. I teach art by day at Greenfield-Central High School and paint every evening in my studio. My work mostly consists of acrylic paintings on canvas based on layered digital collages. Layering of imagery and the transformative process that a work of art goes through are recurring themes explored in my work. The creation of each piece is documented throughout its development so visitors to my website can see the art come to life.
